

PCRS-UK National Primary Care Conference Optimal Respiratory Health: Leading The Way

10th-11th September 2010 • Telford International Centre

CALL FOR ABSTRACTS

PCRS-UK Clinical and Scientific Abstracts 2010

This year, the annual PCRS-UK conference aims to showcase community-based respiratory research and innovative clinical/service developments through a series of abstract-based oral presentation sessions running throughout the two day conference as well as a top-class poster display in the exhibition area. There will also be a session **dedicated to clinical audit** with the aim of sharing best practice and highlighting areas for development.

£250 PRIZE
For best original abstract submitted which shows improved outcomes for patients with respiratory disease*

We are therefore inviting submission of abstracts for oral presentation in the research and audit sessions, and poster submissions for display in the exhibition area, throughout the 2010 PCRS-UK conference.

1. Blow your Trumpet...Scientific Abstracts of Original research

If you are involved with a research project on any aspect of primary care respiratory medicine, this is your opportunity to present your findings and get valuable feedback from primary care-based clinical and academic colleagues. For those new to research it looks great on your CV and is a chance to meet other like-minded individuals. For established researchers it's a chance to catch up with research going on around the country and to network with colleagues and potential collaborators or funders. Previous feedback from both junior and experienced researchers has shown that the Original research abstract presentation sessions at the conference are stimulating, enjoyable and useful.

Consider being part of this exciting programme!

2. Sharing Best Practice – the power of audit

If you have been involved in a project which has changed practice in primary care, why not submit an abstract describing your project and its findings? This is an opportunity for you to showcase your work, share your experiences and discuss the outcomes of your work with colleagues. We are particularly keen to see the results of local or national audits which have the potential to improve outcomes for our patients in primary care. You can present your work for oral presentation in the dedicated audit sessions or as a poster presentation to be displayed throughout the conference in the exhibition area.

DEADLINE FOR SUBMISSION OF ABSTRACTS IS 20 JUNE 2010

For details on submission dates, how to get help, how to submit your abstract, and guidance on artwork together with notes for contributors, please log on to <https://www.pcrs-uk.org/abstracts/>

Be a part of the Conference - Share your work with the PCRS-UK

The PCRS-UK is willing to offer support to those without previous experience of submitting posters.

***prize available only to entrants who are submitting original work which has not previously been published or presented at national/international meetings and conferences**
