

Help others improve
respiratory care

Start making a
difference today.....
you can do it!

Put your group
on the map!

The Primary Care
Respiratory Society UK
(formerly known as the
GPIAG) is the voice of
respiratory primary care and
is well established as an
independent and
authoritative professional
society, supporting the
development and delivery of
optimal respiratory health.

Find out more about how
PCRS-UK can support you...

the specialist respiratory division
of GlaxoSmithKline, and Napp
Pharmaceuticals in the provision
of an educational grant to
support the respiratory
leaders programme.

“Building an effective local respiratory team/network” interactive practical workshop

1pm 12th – 3pm 13th November 2010
Staverton Park, Northampton

Book now if you...

- have the drive and passion to champion respiratory care and support colleagues locally
- want to set up or develop a respiratory team/network or local nurse group

You will get

- Tangible hints, tips and practical tools/resources to help you to:
 - Understand, support and work with different styles of people
 - Engage and influence key stakeholders
 - Motivate peers and managers to improve respiratory care
- Organise, market and maintain a local respiratory team/network or nurse group
- Opportunities to share ideas with, and learn from, others around the UK
- The latest respiratory clinical and policy news and how to use it locally to improve care
- Personal action plans and key learning points to take away and put into practice
- A network of like-minded colleagues for future advice and encouragement
- A range of sessions led by expert presenters and facilitators:
 - Clinical and policy updates and management skills practicals
 - “Resource area” - support from a wide variety of organisations
 - “Ideas bazaar” - suggestions to take back and put into practice
 - “Chatterbox” workshops - 45 minute expert-led highly interactive, practical, skills-based workshops on topics such as:
 1. setting up and marketing a new group
 2. working with pharmaceutical companies
 3. organising and chairing a meeting
 4. keeping a group energised and progressing
 5. presentation skills
 6. facilitation tips for educational meetings
 7. dealing with difficult individuals
 8. communicating with commissioners

Who are the facilitators?

Dr Steve Holmes

Steve is a GP in Shepton Mallet and co-chair of IMPRESS. A previous Chair of PCRS-UK, and current Education Lead of PCRS-UK, Steve has wide experience working in both the PCT environment and in teaching leadership and change management skills. He is current chair of the Somerset Respiratory Local Implementation Team (clinical network) and the BLF South West Committee. He is also a member of the RCGP College Council. Steve is Chair of the Respiratory Leaders' Programme.

Dr Stephen Gaduzo

Stephen, a GP in Stockport, was part of the group that developed Tier 2 COPD service in Stockport and was appointed as one of the first respiratory GPwSIs in 2004. Stephen is a member of the PCRS-UK Conference Organising Committee and a member of the Improving and Integrating Respiratory Services in the NHS committee (IMPRESS, <http://www.impressresp.com>), a joint initiative between PCRS-UK and the British Thoracic Society. Stephen is a member of the Respiratory Leaders Programme's management team.

Dr Basil Penney

Basil Penney is a GP in Darlington and Respiratory Lead for Darlington PCT. He is co-founder of

Darlington Respiratory Team (DART) – a collaboration between primary and secondary care in Darlington. He has developed the Diploma for GPwSI in Respiratory Medicine with Bradford NHS Teaching Trust and is a tutor on this course. Basil is a member of the Respiratory Leaders Programme's management team.

Sandy Walmsley

Sandy is a Respiratory Nurse Specialist, leading a Multidisciplinary Community Respiratory Team as well as being the Respiratory Clinical Champion for Solihull Care Trust. She has been a Regional Trainer for Education for Health for several years and is a committee member for ARNS (Association of Respiratory Nurse Specialists) and is also a member of the management team for the Respiratory leaders Programme.

Dr David Lomas

David is a consultant with Pentacle Business School who have helped develop the Respiratory Leaders' Programme. Previously, David was the director of the Royal Mail Innovation Lab serving a wide range of industry, government and academic clients. David's background includes posts in HR (Organisational Development) and IT (applied research and futurology), developing artificial intelligence systems and consulting on business innovation and creativity.
