Inspiring best practice in respiratory care
<table>
<thead>
<tr>
<th>POLICY</th>
<th><strong>Inspiring best practice in respiratory care</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Diagnosis</td>
<td>Input to Lung health taskforce via members, and seat at table; Respiratory to feature in NHS LTP, and good NHSE/PCRS liaison plus seat at table</td>
</tr>
<tr>
<td>Spiro training and national register – ARTP/ICST liaison, Scrutiny board input (June/Dec), engaging NHSE on e.g. spirometry register, breathlessness guideline, coding for diagnosis</td>
<td></td>
</tr>
<tr>
<td>Indicators and coding</td>
<td>Input to QOF strategic review and asthma QOF revision; Atlas of variation; READ to SNOMED – initial mapping of COPD audit queries; Engaging NHSE on coding issues; Input to review of COPD/asthma QOF (Nov/Dec)</td>
</tr>
<tr>
<td>National guidelines – COPD and asthma</td>
<td>Lobbying for single comprehensive guideline with NICE/SIGN/BTS and input to revised asthma guideline review; NICE COPD draft guideline input (prompted extension to include triple therapy and guidance on OS course length); did not support revised asthma quality standard</td>
</tr>
<tr>
<td>Tobacco dependency</td>
<td>Engaging NHSE on data collecting in England for COPD/asthma audit</td>
</tr>
<tr>
<td>Sustainability/ inhalers</td>
<td>Input to NICE stop smoking interventions and services guideline; pushing for NHS engagement on treating tobacco dependency (vs public health)</td>
</tr>
<tr>
<td>BTS environment statement; NHS sustainability unit looking at environmental issues re inhalers – rec NHS reduces MDIs by 50% by 2020</td>
<td></td>
</tr>
</tbody>
</table>
Clinical Strategy

DISEASE FOCUS

• COPD, asthma, tobacco dependency plus allergy /infection

&

HOLISTIC /PATIENT FOCUS

• Diagnosis, multi-morbidity, patient activation /supported self-management, symptom management

Value Based Care  Digital First
